OPEN ACCESS:

Following an interview with parents, year 11 students may be eligible to enrol in one Open Access subject for the year.

VOCATIONAL EDUCATION AND TRAINING (VET):

Students in the Senior School may be interested in pursuing a more practical TAFE Course, Trade or a School Based Apprenticeship. This path to a career is an option which allows you to stay at school while you gain credit for a course (for example a TAFE course) and also complete your SACE. In effect, for each element of learning completed, you get credit for your SACE and credit for other courses, such as TAFE.
