Legal Studies	

OPEN ACCESS COLLEGE:

Students in year 12 are able to enrol in an Open Access College subject (OAC), which allows for more choice. However, we encourage each student to limit this to one subject, as the learning is more independent and it is often a challenge to keep up with the work load in year 12.

VOCATIONAL EDUCATION AND TRAINING (VET):

Students in the Senior School may be interested in pursuing a more practical TAFE Course, Trade or a School Based Apprenticeship. This path to a career is an option which allows you to stay at school while you gain credit for a course (for example a TAFE course) and also complete credit points for your SACE. In effect for each element you complete you get credit for your SACE and credit for TAFE units.
